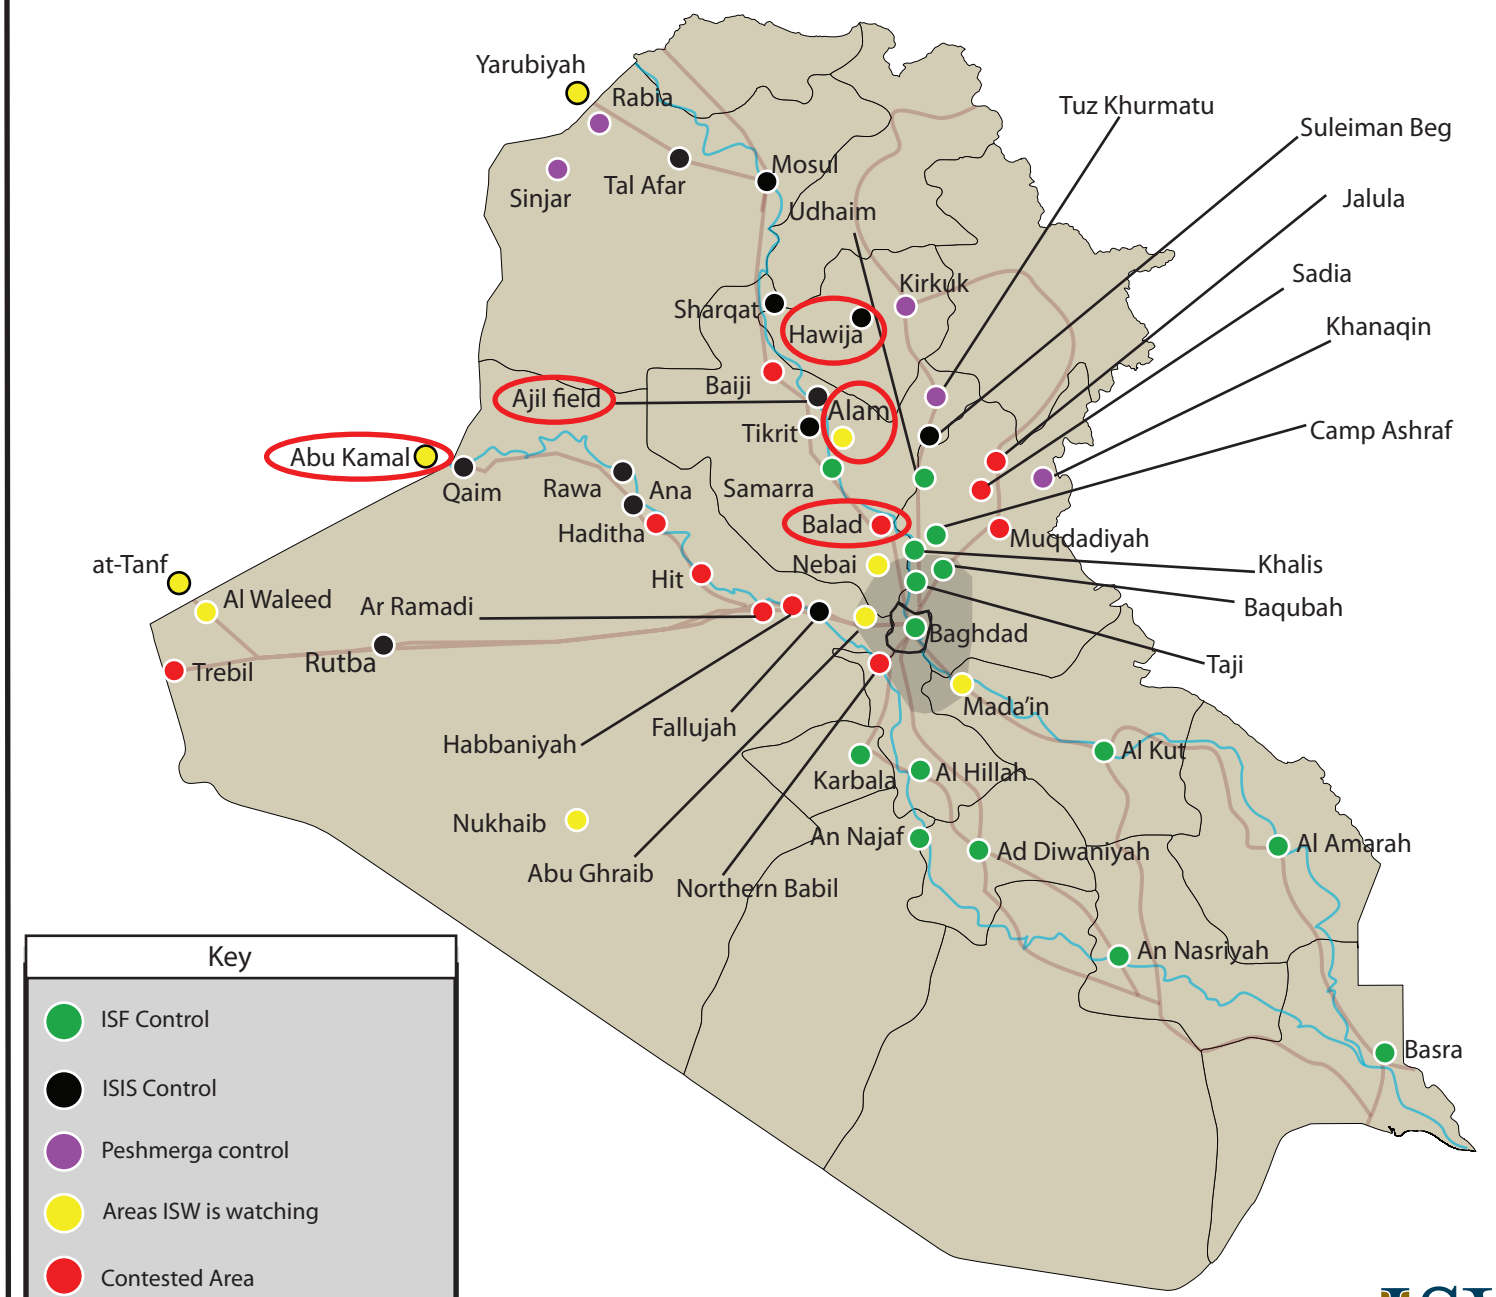
Control of Terrain in Iraq: June 25, 2014



ISW
INSTITUTE FOR THE STUDY OF WAR

by the ISW Iraq Team

Changes for June 25 update: 1. The situation in Alam is under watch rather than Contested because there are no reports of clashes and no evidence of ISIS presence inside the area. **2.** Reports indicate that ISIS took control of the Ajil oil field facility in a deception operation. **3.** Hawija remains under ISIS control for the most part, but there is a push back from groups in the area. **4.** Balad airbase is the object of heavy fighting between ISIS and the ISF. **5.** ISIS attacked Jabhat al-Nusra (JN) and allied brigades in Abu Kamal, but the town remains heavily contested.
